

## *Cuyamaca Student-Athlete Academic Award*

In the fall 2007 semester the athletic department began a new recognition program called the *Cuyamaca Student-Athlete Academic Award*. The department will present this award to any full-time student certified as a varsity athlete who achieved a grade point average of 3.0 and above for the semester. These awards are designed to be another tool in recognizing and encouraging student-athlete achievement in the classroom. In the future we will implement other programs and ideas with the same goal. The ultimate objective with this new award program and future programs is to improve student-athlete retention and graduation.
