

Want to put some  
**FLEXIBILITY**  
in your schedule?  
**TAKE A BLENDED CLASS**

**What is a blended class?**

- A blended class is a class that is offered partly in the classroom (at least 51%) and partly online (no more than 49%).

**What are the advantages?**

- You get the best of both worlds: face-to-face time with your instructor AND the flexibility of online learning.
- You have greater flexibility in arranging your personal schedule: your work, your play, and your other classes.
