

BLENDDED IN CLASS BLENDDED ONLINE

Want to put some **FLEXIBILITY** in your schedule? **TAKE A BLENDED CLASS**

What is a blended class?

- A blended class is a class that is offered partly in the classroom (at least 51%) and partly online (no more than 49%).

What are the advantages?

- You get the best of both worlds: face-to-face time with your instructor AND the flexibility of online learning.
- You have greater flexibility in arranging your personal schedule: your work, your play, and your other classes.

See Course Offerings for details
