Headcount Enrollment Data

#	Question	Answer
6.	Total unduplicated headcount enrollment:	2017-18: 14,278 2018-19: 13,808 2019-20: 13,901
6a.	Percent Change 2017-18 to 2018-19: (calculated)	-3%
	Percent Change 2018-19 to 2019-20: (calculated)	1%

6. Additional Instructions and Data Definitions:

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the

purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 20.

7.	Total unduplicated headcount enrollment in degree applicable credit courses:	2017-18:	13,804
		2018-19:	13,546
		2019-20:	13,689

7a. Please list any individual program which has experienced a 50% increase or decrease in the last year.

Three programs saw an increase in headcount from 2018-19 to 2019-20: Nutrition increased from 0 to 180 students (two new courses); Surveying increased from 18 to 32 students; and Work Experience increased from 161 to 360.

7. Additional Instructions and Data Definitions:

Per federal regulations, ACCJC is responsible for monitoring for significant program growth (or decline) that may potentially impact an institution's ability to meet Accreditation Standards. ACCJC does not determine what constitutes a program for colleges. For the purposes of this report, you may define degree-applicable credit programs as appropriate for the context of your institution's unique mission.

Distance Education and Correspondence Education

#	Question	Answer	
8.	Total unduplicated headcount enrollment in distance education in last three years:	2017-18	6,696
		2018-19	7,490
		2019-20	8,510
8a.	Percent Change 2017-18 to 2018-19: (calculated)	12%	
	Percent Change 2018-19 to 2019-20: (calculated)	14%	

8. Additional Instructions and Data Definitions:

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

IMPORTANT NOTE REGARDING DATA FROM SPRING 2020: When calculating total DE enrollment for 2019-20, please include 100% online courses from summer 2019, fall 2019, and winter 2020. For Spring 2020, please include only courses that were originally scheduled as 100% online. Omit any courses that shifted to a distance modality due solely to the COVID-19 pandemic.

9.	Do you offer Correspondence Education?	No
----	--	-----------

9. Additional Instructions and Data Definitions:

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve paperwork (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 8, above).

Federal Data

#	Question	Answer
10.	List the Graduation Rate per the US Education Department College Scorecard	22 %
<p>10. Additional Instructions and Data Definitions: The US Education Department College Scorecard can be accessed at https://collegescorecard.ed.gov/. Enter your institution's name in the search box to find the current graduation rate. For the purposes of the College Scorecard, graduation rate is defined as the share of students who graduated within 8 years of entering this school for the first time.</p>		
11.	If your college relies on another source for reporting success metrics, please identify the source. Click all that apply.	College established dashboard
12.	Please provide a link to the exact page on your institution's website that displays its most recent listing of student achievement data.	https://www.cuyamaca.edu/about-cuyamaca-college/planning/evaluation.php

12. Additional Instructions and Data Definitions:

ACCJC will include a link to this page in your institution's entry in the ACCJC Directory of Accredited Institutions (<https://accjc.org/find-an-institution>). This reporting and monitoring requirement supports ACCJC's recognition by the Council of Higher Education Accreditation (CHEA) and is aligned with ACCJC's Accreditation Standard I.C.3 and Eligibility Requirement 19.

210400 Human Services	66 %	N/A %	77 %	66 %	N/A %

19. Additional Instructions and Data Definitions:For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2019-20 job placement rate will be the number of students who completed the program in 2018-19.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2018-19, you do not need to report a job placement rate for 2019-20. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 20.

Other Information

Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

20.

For Question 19: Data for the 2018-19 cohort CTE employment rate were not available from the College's standard data source (CCCCO Perkins Core Indicators Reports) was not available as of the submission of this report; thus, that year of data are shown as "n/a" in this report. The College has a previously-established Institution-Set Standard of 66% for employment rate across all CTE programs. At the March 15, 2021, Workforce Development Council meeting, CTE program coordinators began

discussing the need to create program-specific standards and stretch goals. During this meeting, CTE program coordinators and the Dean of CTE recommended the review of employment rate standards and stretch goals through the program review process. The Senior Dean of IESE agreed to bring this recommendation to the Program Review Steering Committee and noted that the IESE Office would provide employment rate dashboards for all CTE programs to inform these standards and stretch goals. Thus, no stretch goals for employment rate were established in time for this report; however, they will be reported in the 2022 ACCJC Annual Report after CTE program coordinators submit their revised standard and new stretch goal through the program review process.

The data included in this report are certified as a complete and accurate representation of the reporting institution.
