DSPS commendations:

- The data collected shows that DSPS students need a myriad of modalities to ensure that they understand the educational supports that they have on campus. Data also shows that the numbers of students being served through disability services is increasing, which requires more faculty training and innovative instructional methods.

Good job on looking for more inclusive ways to meet DSPS students' needs such as transfer and specific language workshops
 Well based data on program needs

DSPS recommendations:

- For Q13. DSPS could give more reflection ways to improve services. For example, the statement, "improve service workshops in Arabic" could have a few reflective statements or describe a general action plan.
