Q2 Did you feel comfortable participating in the Summer Bridge Program this summer?

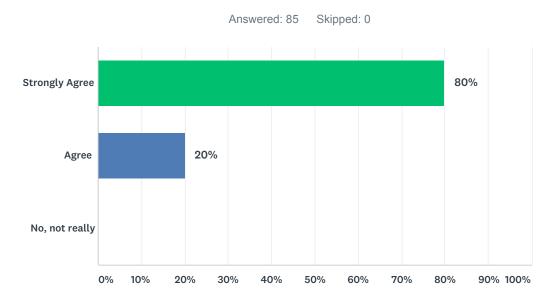

ANSWER CHOICES	RESPONSES	
Yes, I felt welcomed	92%	78
I felt somewhat welcomed in the summer bridge program 8%		7
No, I did not feel comfortable	0%	0
TOTAL		85

Q3 Did you find the Summer Bridge program useful?

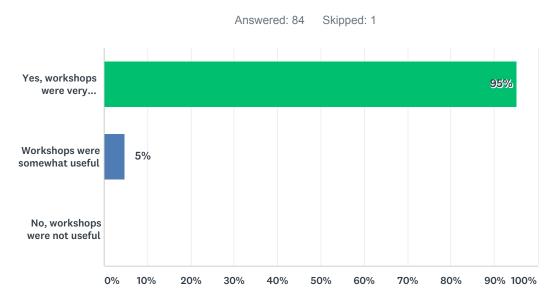

ANSWER CHOICES RESPONSES		
Yes, it was very helpful 91%		77
The Summer Bridge program was somewhat useful 9%		8
No, it was not helpful	0%	0
TOTAL		85

Q4 Do you agree that the Summer Bridge program helped you become more aware of campus resources?

ANSWER CHOICES	RESPONSES	
Strongly Agree	80%	68
Agree	20%	17
No, not really	0%	0
TOTAL		85

Q5 Do you believe the Tutoring Center tour, Mindfulness workshop, and Getting Organized workshops are useful for students?

ANSWER CHOICES	RESPONSES	
Yes, workshops were very useful 95%		80
Workshops were somewhat useful	5%	4
No, workshops were not useful	0%	0
TOTAL		84

Q6 What other workshops would you like to see included and have more information about to help future students in the program? Make a list below:

Q9 What did you like best about the Summer Bridge Program? Please list below:

Answered: 81 Skipped: 4

#	RESPONSES
1	The information about universities and what can you do to get on one of those
2	Getting comfortable with school before it even started. Nice to understand everything so it doesn't get overwhelming.
3	Everything: -Mentor; -Teacher; -The help; -People; -How the classes are -Not that bad
4	I liked the community in the Bridge Program, they made me feel welcomed. The schedule was nice because it started at 9 so not too early and ended at 12. I liked the timing because it didn't start too early and it didn't end too late. Also it was very informational and I learn where to go it I have questions on campus.
5	The information about schools
6	I enjoyed meeting new people. I also liked creating the resume and the cover letter. I think they will be very useful
7	What I liked about the Summer Bridge Program was the fun activities and the communication and getting to know each other.
8	l liked learning where students can go attain help when struggling in a subject: -Arc Center; - ESL/Writing Center; -Math/Science Center
9	I liked when we talked about what we would need in order to transfer. If she wouldn't have told me I would never know
10	I was able to learn more about myself and connect with my future classmates
11	Meeting new people
12	The part where we were on teams and help each other to solve anything
13	I liked that it brought everyone together and now you feel excited and not so nervous for the first day of school.
14	I liked that the Summer Bridge Program was very informational, I also feel a lot less nervous about starting my fall classes.
15	I liked how the professors and the counselors are useful and are really wanting to help you out. I liked how we did activities such as the personalities might not have seen before.
16	I liked meeting new people who were supportive and had similar concerns as me
17	-I liked that we could do assignments that required us to walk around the school and talk about our personality and abilities
18	-Allowed me to communicate; -Showed me and inspired me to think positive; -Showed me to always ask when I need help; -Don't just kill yourself, relax at times; stay off phone!
19	My best about the Summer Bridge was the team the we are
20	The tour that they gave us around the campus.
21	Getting to know some people before hand
22	The certificates I am able to get.
23	The thing I liked best was the environment at the classroom. I felt so welcomed and prepared/comfortable with all the new formats in college. Ms. ***** was a big help in that alongside the other mentors.
24	I get to know people and going to the tour and knowing about how to prepared before fall semester come.

25	I liked how I felt confident enough to participate
26	The dodge ball was fun
27	What they teach me
28	The scavenger hunt really helped me know the different types of resources provided at the school
29	I liked visiting all the tutoring centers along with doing the personality assignment.
30	What I liked best about the Summer Bridge Program was the opportunity to meet new people.
31	Interacting with new people
32	-Learn the school; -Making new friends; -Learning new things of what to do to get pass college
33	-Getting to know people; -Tutoring center tours
34	Being able to review various topics such as how to make a resume, finding a career and planning ahead
35	This program did a great job at getting me familiarized with Cuyamaca and reassured me that I would have support starting off the school year.
36	I enjoyed how we were introduced to all of the tutoring/help centers
37	I really liked how I got to meet new people and learn more about this college.
38	I really enjoyed the hands on help we got/can still have
39	I liked how the professors were warming and welcomed all the students.
40	Is guiding us to our best path; showed us all the resources we have; they are helpful
41	The best part of summer bridge was meeting new people before I start school in the fall
42	Lecture topics
43	I like that we got to have a little taste of what college is going to be like
44	I liked participating in the outside activities.
45	It was really relpful for the students who were still indecisive about their career path and this class brought a much more understanding for academic success. This class also helped me on the GE requirements and to choose courses carefully in order to transfer. The presentations were really helpful also and I was given more information about my career.
46	I like how we got to see places where we can get help, I also liked that I got to learn something about what I need to get into a UC.
47	That it was preparing us for college work. Also preparing us for universities when & if we transfer.
48	I like that there were activities that brought people together. Also, the tour of the campus.
49	- they helped us out to be aware of what's coming up.
50	-getting more into how to transfer; -the teachers/mentors/counselor were helpful
51	I like that you kind of get a feel of what your classes are going to look like and you get to meet people and make friends all off this before school actually starts.
52	I liked that we explored the school more because I feel that that's like a real start. And I like that now i've met some students that would most likely be in my class
53	-Get to meet new people; -Experience college beforehand; -Interact with new people
54	Personality test and the activities
55	The attention is so good in this program.
56	What I liked best about the Summer Bridge Program was that it gave me a huge insight about what to expect about community college.
57	The mentors were really helpful and helped us step by step with anything.
58	All the videos & assignments, like the personality assessments & the career options video
59	IT was really eye-opening. I felt like it was a huge stepping stone.

60	Feeling welcomed
61	-Meeting new people; -Knowing the campus
62	Getting to know myself & others more.
63	I liked the tour in the beginning of the program. I feel like I have a better idea where everything is now. I thought the "Olympics" were fun too. It was a nice break from the school work and a good way to meet new people.
64	I liked that the professors/mentors really care about how comfortable we feel. Also how all the resources we learned actually apply to our life, not like high school.
65	Everyone is willing to help you to reach your goal
66	-Making friends; -A lot of access of opportunities; -Helpful & thoughtful mentors & instructor
67	That we were able to figure things out that we didn't even know about ourselves, also the hunt to figure out where everything was
68	What I really liked was the tour/scavenger hunt. I feel like it really helped me, and win help me save time.
69	I liked how smooth of a transition it was from high school to college. IT also really prepared me with the tours so I know where my classes are
70	-Meeting new people; -Knowing that there are resource centers; -Know the campus more and understand how to pick my classes better
71	-How to manage my time; -How to choose classes
72	Mentors and classmates
73	-Meet new people; -The instructor and the mentors are prepared and ready to help you; -The information and how they guide you.
74	I liked being able to meet with the mentors b/c they're still students here & they know what's going on currently and are able to guide you from a student's perspective
75	I like that it was like a head start for incoming college freshmen. It helped me make a few new friends and sometimes challenged my personality.
76	I like all the support that the instructors give it to us. I like the interaction with all the new students. Also like the presentations and workshops that the instructors give to us.
77	Learning more about the resources and learning about the different majors that are available here at Cuyamaca
78	I like how open it is and how they don't college feel like a prison
79	-I liked how organized it made me; -Personality test; -Creating a resume
80	I like how much info we were given about the school and knowing ourselves and it really made me just excited to learn and be in college.
81	I like how comfortable and educated our supervisors are because I can believe and want to listen to what information they have to say.

Q10 How can we improve the Summer Bridge Program for future students? Please list below:

Answered: 74 Skipped: 11

#	RESPONSES
1	-Emails; -Dates/hours; -Little more information about this program
2	-Making mentor meetings more straight forward so they have a purpose instead of making them more of a choreMore things to talk about, more of an objective.
3	Maybe: spend more time with each student or a small group
4	You can improve it by providing snacks to energize us
5	By not making so many activities in the sun when it's really hot
6	To be completely honest you guys are doing great with this program. Everything you guys have done has helped me. I feel welcome. Thank you!
7	Talk more about all the resource centers available around campus and talk more about transfer requirements and courses that must be taken in order to graduate and transfer more early on.
8	Be a little bit more organized
9	Be more organized
10	Well probably by giving more breaks because our generation is not used to be sitting and listening for a lot of time,
11	-Improve 3rd hour activities; -"Olympics" wasn't really fun
12	-Being more organized; -Not having so much down time
13	Maybe having us already assigned to a mentor meeting/date and time, that way maybe it won't be so chaotic and if you weren't to be able to make it then you would have to go reschedule.
14	Don't make people feel obligates to play field games/or prepare for it better and let us know in advance we might be getting wet.
15	-I feel that "Summer Bridge Program" is already good for new students
16	 -I would like to contribute to be a mentor, to tell them how short but important the experience is during the summer and the best to come within the years; -I say expand/spread the word on pathway; -Really get that one on one to talk about emotions
17	Nothing
18	A little more planning or organization from teachers
19	The benefits of being in Pathways.
20	I wouldn't change a thing. I feel prepared already.
21	This summer class is really helpful.
22	I think the way I can improve is by the mentors talking more in class so we can get close to them
23	Don't have 3 hour classes because we get unfocused and sleepy
24	I think talk each other (students) to know each other
25	It was a great experience
26	I honestly feel as though the Summer Bridge Program was perfect the way it is, so just keep up the good work.
27	-Start events earlier; -Set up earlier
28	Do more hands on activities in between lectures
28	Do more hands on activities in between lectures

29	There's nothing to change really you did really good and just keep doing what your doing
30	-Many of us do not know much about financial aid stuff, so it would be helpful if we got more details about it; -I feel like there was too much flexibility causing students not to take the class seriously. This is college.
31	-Set a stricter plan for the days to enforce more structure to the class; -I wish that it was more structured in the timeframe we had and topics weren't over talked about
32	Spend more time going over the education plan and more of the technical stuff we need to know about college i.e. how we can get ready to transfer.
33	Leave more time for presentations/workshops. Some of them felt rushed
34	There could be improvement by instead of having a lot of presentations have students engage in more fun activities.
35	Have more interactive activities than lectures.
36	More hands-on activities
37	Maybe next time we can go over how to get extra money for college.
38	A full walk-through on how to use Canvas
39	Less long lectures & explaining the final on Monday rather than the day before it's due
40	Make them do many activities in groups and with people they still don't know. It's better if they get to talk to everybody in the class and make new friends.
41	I think everything was wonderful but maybe having more lessons on how to know more about certain careers.
42	Make more group activities
43	Go more in detail about different majors and careers for those students who are undecided
44	- Have more time for the Olympics
45	One of the big issues that incoming students have is that they hate being treated like a little kid and almost like a high school freshman not a college freshman. I think maybe allowing students to have freedom and maybe not be forced to do things but also maybe have workshops with the teachers and mentors about how you can still be there for your students without making them feel like children or something "underneath" you.
46	Not do activities out in the hot sun. They were still fun but you end up with a headache.
47	-Time management
48	It's good :)
49	Doing more specific jobs.
50	We can improve the Summer Bridge Program by offering & showing more videos about being in community college.
51	I guess just have more activities so it can be a bit more fun.
52	More group talking
53	Be a little more organized.
54	Be a little more organized w/ time
55	Get more involved
56	Nothing, it's perfect
57	I don't think anything else should be added.
58	Everything you seem to be doing is great to me :)
59	Everything is fine.
60	-Do more activities; -Add more mentors; -Add & discuss more about life, not just identifying it because it just makes us curious of who we are

61	Maybe have two different sessions, because maybe not all students are available those 2 weeks!
62	Start the program earlier so everything doesn't feel as rushed. That way we can have more workshops
63	Have more activities with the other classes so we meet new people
64	-Respect time; -Do more fun activities
65	Help them with research careers
66	I don't know if they weren't organized or ready but I really wanted to play in teams in the pathway academy olympics and that never happened.
67	Maybe more time b/c there's so much to learn in so little time (maybe 3 weeks).
68	I think it's perfect, maybe just make it 3 weeks long.
69	I think the summer bridge program it is ok.
70	I think there should be a workshop about getting more in depth about different careers and learn what it's like to work in that field. There should be examples, demonstrations, and activities and act like we are working in that field. This would be really helpful for students who are undecided about their majors.
71	What I would suggest would be to explain things a lot more and have more time so future students can learn more about Cuyamaca
72	You can improve the summer bridge program by making more outdoor activities to connect the students.
73	Just by giving more tours of the school because I still feel like I'm going to get lost. And also really inform students on how they can have careers they will enjoy without needing a degree. I think that would be really helpful for a lot of people and save them a lot of money.
74	Improve it with more mentors
