Subject: Faculty Request - Program Review

Hi Alicia - I hope that all is well. I was wondering if we could update one question on the program review (faculty request form)? I'm not sure how to update (after already submitting). It was this question:

What are the racial and gender demographics of the faculty within the program? What steps will your program take to ensure that the recruitment for this position will encourage/promote faculty diversity?

The Business department is predominately caucasian. There is one African-American instructor currently in the department. The department is a mixture of genders. Any recruiting for the department will focus on diversity and inclusion (and will be noted on any marketing efforts).

Thanks.
