

**Health Services Student Demographics
(December 2021)**

Data Sources and Parameters

Health Services provided a list of students who received their services in the 2020-2021 academic year. Demographic data (i.e., gender and ethnicity) were accessed using the GCCCD Information System. Cuyamaca College student population data for the 2020-2021 academic year are provided as a reference point and comparison for students who received health services and to examine access to services through an equity lens.

Summary of Results

- Hispanic/Latinx students and Middle Eastern students were overrepresented in receiving services from Health Services when compared to the Cuyamaca College student population. African American/Black students and Asian students were underrepresented in receiving services.

Table 1: Health Services Students by Race/Ethnicity

Race/Ethnicity	Health Services		Cuyamaca Population	
	#	%	#	%
African American/Black	1	1%	777	6%
Asian	--	--	767	6%
Hispanic/Latinx	38	40%	4,503	34%
Middle Eastern	17	18%	1,349	10%
Native American	--	--	85	1%
Pacific Islander	1	1%	43	0%
White	32	34%	4,537	35%
Two or more	5	5%	822	6%
Other/Unknown	--	--	179	1%
Total	94	100%	13,062	100%

- There was no difference in students receiving Health Services based on gender.

Table 2: Health Services Students by Gender

Gender	Health Services		Cuyamaca Population	
	#	%	#	%
Female	55	59%	7,620	58%
Male	39	41%	5,304	41%
Unknown	--	--	138	1%
Total	94	100%	13,062	100%
