RE: Quote 13355077
This quote is valid until 29 Feb 2024

Thank you for your interest in MathWorks products and services. Your quote includes pricing and ordering instructions.

There are two easy ways to place your order:

- **ONLINE:** View your quote at mathworks.com/store/quotes and purchase by credit card (login required)
- **EMAIL:** Send a purchase order to orders@mathworks.com. Be sure to include your quote number on your order.

Additional order and payment information are included on the following pages of this quote.

If you have questions, please do not hesitate to contact me.

Sincerely,

Kelly Canavan

Ordering and Payment Information

U.S. or Canada orders please note: Your order will be subject to standard Canadian GST/PST/QST or U.S. sales taxes which will be calculated using the "ship-to" address at the time the order is processed. The taxes shown on your quote are estimated. If the correct tax is not shown on your quote please make the adjustment when remitting payment or submitting your purchase order. If tax should not be added to your order please provide a tax exemption certificate or other appropriate documentation if you have not done so in the past. See "Tax Remittance Information" below for additional tax information.

ONLINE

Pay by credit card in MathWorks Store at mathworks.com/store. Login to MathWorks account is required. If you do not have an account, use the "Create an account" option on the login screen.

Money-Back Guarantee

If you are not completely satisfied with your purchase, call within 30 days for a full refund.

Licenses for Educational Institutions

MathWorks offers MATLAB®, Simulink®, and other products at reduced prices to degree-granting educational institutions.

Institutions cannot use the products on these licenses for commercial purposes. Non-degree granting research institutions, government agencies, and other not-for-profit organizations do not qualify for these licenses. MathWorks offers reduced prices to degree-granting educational institutions as a service and asks your help in ensuring that the practice is not abused.

Academic Licenses

Academic licenses are for use in teaching, academic research, and meeting course requirements at degree-granting institutions.

Academic licenses are available with the following license options:

Individual: Individual licenses are intended for use by a single named user. The products can be activated on up to four different computers provided that the products are only accessible to and used by that single named user. A named user may not use a program on more than two computers simultaneously.

Designated Computer: Designated Computer licenses are intended for use on a single, designated computer provided that the products are operated from that computer's console by one licensed user at any given time.

Concurrent: Concurrent licenses are intended for use by a specified number of concurrent users to run the product on any computer that is connected to a single network license manager. Installation of the products is limited to institution-owned computers or computers personally owned by faculty, research, and academic staff.

Campus-Wide (Total Headcount): Campus-Wide Licenses are intended for use by all faculty, staff, researchers, and students on personal computers and university-owned machines.

Academic Teaching License

Academic Teaching licenses are for use in teaching and meeting course requirements at degree-granting institutions. Academic research is not permitted. The Academic Teaching license is intended for use by a specified number of named users (faculty and students). The products may be used on personal computers and university-owned machines. A named user may not use a program on more than one computer simultaneously.

Community and Technical College License

Community and Technical College licenses are for use in teaching and meeting course requirements at institutions where the dominant form of degree conferred meet the International Standard Classification of Education 2011 Level 5, Short-Cycle Tertiary Education as qualified by MathWorks. The Community and Technical College license is intended for use by a specified number of named users (faculty and students). The products may be used on personal computers and university-owned machines. A named user may not use a program on more than one computer simultaneously.

Primary and Secondary School License

Primary and Secondary School licenses are for use in teaching and meeting course requirements at primary and secondary schools.

The Primary and Secondary School license is intended for use by all faculty, staff, and students. Programs may be used on personal computers or school-owned machines. Each Primary and Secondary School license is limited to a single physical address.

License Term

Annual licenses provide the right to use the software for a fixed duration, and MathWorks Software Maintenance Service is included in the license fee. To ensure uninterrupted service, you may renew your license prior to the conclusion of the license term. Otherwise, the license and Software Maintenance Service will expire at the end of the term period.

Perpetual licenses provide the right to use the software indefinitely, and the first year of MathWorks Software Maintenance Service is included in the initial purchase price. After the initial 12-month period, an annual fee is required to renew your Software Maintenance Service.

MathWorks Software Maintenance Service

The first year of Software Maintenance Service is included with new product licenses. You can continue uninterrupted service in subsequent years by renewing your subscription annually.

MathWorks Software Maintenance Service includes:

- The latest updates to your MATLAB and Simulink products with releases twice a year
- Worldwide technical support from specialized engineers
- Online offerings such as MATLAB Mobile, MATLAB Online, and MATLAB Drive

Note:

- An active subscription is required to purchase add-on products.
- If your subscription lapses, renewal at a later date will incur fees for the forward service period, any applicable back maintenance fees for the lapsed period, and a reinstatement fee of 25% of the annual cost of Software Maintenance Service.
- For more information, see [mathworks.com/services/maintenance](https://www.mathworks.com/services/maintenance).

Ineligible Programs

See Product Requirements to determine whether each program is eligible for use with MATLAB Compiler, Simulink Compiler, Parallel Computing Toolbox and MATLAB Parallel Server. [mathworks.com/prodreq](https://www.mathworks.com/prodreq)

Additional Fees

The fees for the license are determined based on the country where all licensed user(s) are principally located. Additional fees may apply to transfer the license, or the principal location of any licensed user, to another country.
