KOW 1	Vari	Varz	Properties		From paste	on the Web
2			Save	жs	Dropbox	
3			Export		Google Drive	
4			Validate		New Data Tabl	e
-+			Row Selection	>	My Data	

Note: You may notice that multiple StatCrunch tabs open in your browser. You may close any StatCrunch tab that you are not using.

2) Locate the data file on your computer (likely in your downloads folder). Drag and drop the file into StatCrunch.

3) Scroll to the bottom of the page and click the *Load File* button.
