

## How to add NetTutor to your course menu in Canvas

1. Open your course in Canvas.
2. On the course menu, click **Settings**.
3. Click the **Navigation** Tab.
4. **Drag the NetTutor link** to the top group of links which show to students, in the order you want it to appear on your menu.
5. Click **Save** at the bottom of the page.

### Settings > Navigation

The screenshot shows the Canvas 'Settings > Navigation' interface. On the left is a 'Course Menu' sidebar with a red border. The 'Settings' option at the bottom is highlighted with a green circle and the number '2'. A green arrow points from this 'Settings' button to the 'Navigation' tab in the main content area, which is also highlighted with a green circle and the number '3'. The 'Navigation' tab contains two sections: 'Drag and drop items to reorder them in the course navigation.' and 'Drag items here to hide them from students. Disabling most pages will cause students who visit those pages to be redirected to the course home page.' The first section contains a list of links: Home, Announcements, Syllabus, Modules, Discussions, Grades, NetTutor, and Student Help. The 'NetTutor' link is highlighted with a green circle and the number '4'. A red bracket groups these links, with a callout box stating 'Links in this section show to students in the course menu'. The second section contains links for Attendance, Conferences, Files, Pages, and Chat, each with a status note. A red bracket groups these links, with a callout box stating 'Links in this section are hidden from students in the course menu'.

Section	Item	Status
Visible to students	Home	Enabled
	Announcements	Enabled
	Syllabus	Enabled
	Modules	Enabled
	Discussions	Enabled
	Grades	Enabled
	NetTutor	Enabled
Hidden from students	Attendance	Page disabled, won't appear in navigation
