# CERTIFICATES, ASSOCIATE DEGREES, AND TRANSFER

Cuyamaca offers a variety of degree and certificate options. Most students attend community college with one of three main goals in mind:

## CERTIFICATE

1-2 SEMESTERS

Certificates of Specialization and Certificates of Achievement allow you to enhance your skills within a particular job or career. You only need to complete major courses to obtain these certificates--no general education is needed. Certificates generally can take 1 to 2 semesters to complete.

## ASSOCIATE

60 UNITS

Associate of Science Degrees and Associate of Arts Degrees typically take two or more years to complete. These require both major and general education courses, as well as completing 60 degree-applicable units.

## TRANSFER

60 UNITS +

It can take two or more years to complete courses needed to transfer to a public California university. Transferring to a public California university requires both major preparation and general education courses, as well as completing 60 transferable units.

Please speak with a counselor to determine which general education pathway best fits with your associate or transfer goals. For more information regarding transfer options, please see our Transfer Center website.

# TALK WITH A COUNSELOR!

...

**Schedule an appointment with a  
counselor today to discuss and plan  
your academic and career options:**
