- 17) Appraisal of lease interest and discussion of appraising profession and how to enter the profession

Course Objectives

Students will be able to:

- 1) Use accepted techniques of appraising single and multi-family dwellings.
- 2) Describe how commercial and industrial property is appraised.

Method of Evaluation

A grading system will be established by the instructor and implemented uniformly. Grades will be based on demonstrated proficiency in subject matter determined by multiple measurements for evaluation, one of which must be essay exams, skills demonstration or, where appropriate, the symbol system.

- 1) Appraisal report (one or more) that measures the student's ability to use accepted techniques of appraising single and multi-family dwellings.
- 2) Quizzes, final exam that measure the student's ability to describe how commercial and industrial property is appraised.

Special Materials Required of Student

Basic calculator
GradeMaster forms

Minimum Instructional Facilities

Smart classroom

Method of Instruction

Lecture and discussion

Out-of-Class Assignments

- 1) Reading assignments
- 2) Short writing assignments
- 3) Short research assignments

Texts and References
