

I would like to join SOC for the next year because my participation in committees allows me to serve my community and Cuyama College better. My contribution to the team will add more diversity and different cultural aspects that represent faculty and students. Also, my understanding of 10 + 1 was enhanced by serving students and adjuncts since I joined previously, and I believe my demonstration will be better for the coming year. I would like to be the voice of the adjunct instructors and assist students in staying on their path to a better future. In addition, being part of the team will advance equity and reduce the barriers for adjuncts better to address our students' academic and non-academic needs.

Thank you,

Hanaa Alkassas
