

**Resolution to Temporarily Suspend Curriculum Process to Allow for
Math 171 as Appropriate Placement to Math 180 (Math C2210)**

Whereas, the current Curriculum process at Cuyamaca College is not equipped to follow college implementation processes in accordance with AB 1705 and AB 1111 and would restrict access into Math 180 (Math C2210) before Fall 2026;

Whereas, restricting placement into Math 180 (Math C2210) would result in inequitable student access and lead to additional barriers on students;

Whereas, the currently proposed solution, as described in the Resolved below, would only require temporary modification of established processes to address unforeseen process limitations due to AB 1111 implementation, which will be addressed with Math 180 (Math C2210) Course Outline of Record (COR) modifications to be in effect by Fall 2026 .

Resolved, that the Cuyamaca College Academic Senate on behalf of the Curriculum Committee, a subcommittee of the Academic Senate, moves to suspend the current process, to in this case rely on consultation between Math Departments across the District to allow for equitable access into Math 180 (Math C2210) by allowing Math 171 to serve as appropriate placement placement into Math 180 (Math C2210) before Fall 2026.
