

LACAC Proposed Changes

[5/14 Information] [Proposed Changes to the Charge and composition of Learning Assistance Center Advisory Committee \(LACAC\)](#)

1. **A summary of the proposed changes follows (provided by Mary Graham):**
 - a. Shifting from one Math and one Science rep to one MSE rep (The STEM chairs and dean were consulted about this and agreed with the proposed change);
 - b. This would mean MSE would have the same number of reps as other divisions/communities (1)
 - c. Engineering could be included specifically
 - d. One rep is easier to fill than two
 - e. Now that there are 4 Fulltime Classified Tutoring Center Specialists, rather than calling out one lead from each of the three Tutoring Center, allow any three of the four to serve and, thus allowing the service to rotate each year.
