

## Candidate for Vice President of Academic Senate.

My name is Guillermo Colls and I would like to run for a second term as the Vice President of the Cuyamaca Academic Senate. I feel I have grasped my role as the VP and can help the President of the Senate probably better than another candidate right now because I have been able to share in the President's championing of equity here at Cuyamaca College. I am facilitating smoother committee membership updates and appointments and feel I have a handle on how to fix the few irregularities that occur in the follow-up of committee membership status that naturally occur in an institution our size. It has been a privilege to be part of coordinating a shared governance at this school, and I would like to continue.
