

## Candidate for Full-time Faculty Officer-at-Large for Instruction

### Tania Jabour

I've been a full-time faculty member since 2016 and currently serve as the English department chair. I've also been the Outcomes Assessment Co-Coordinator since 2017, where I've had the chance to work across campus to support a culture of meaningful, equitable assessment. Over the years, I have been actively involved in shared governance through Academic Senate and various committees/councils, including General Curriculum, Curriculum Tech, Institutional Effectiveness, Resource Operations, and more. Along the way, I've helped lead and support projects related to academic integrity, acceleration, equitable teaching and learning, IDEAA in curriculum, and faculty evaluation. I care deeply about creating equitable experiences for both students and colleagues, and I'd be excited to represent and advocate for a broad constituency of full-time faculty in this role.
