Welcome

GCCCD has advanced your employee learning by integrating with the Vision Resource Center (VRC). You can now search, register for, and track campus learning opportunities within the VRC . In addition, you can use the VRC to access a robust course catalog, including LinkedIn Learning (Lynda.com), @One and SkillSoft. You may also want to join statewide community forums where you can discuss ideas, share strategies and resources. This handbook is intended to assist GCCCD employees as you navigate the VRC.

Log In Instructions

The Vision Resource Center is included in our district's Single Sign-On authentication scheme for access to several applications including Office 365, Workday and One Drive. It is recommended that you use this log in method from when off campus, but you may wish to use this method anytime you are not accessing single sign-on.

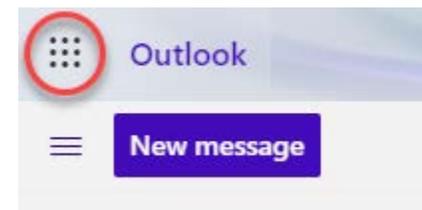

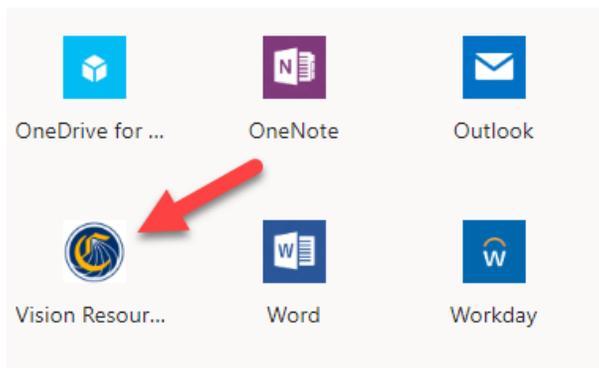

From any Web Browser

In any **web browser** window, type in the URL, <https://www.office.com>, or simply, "[office.com](https://www.office.com)".

Log on to office.com using your network username (@gcccd.edu email) and enter your network/email password.

Click on "All Apps," (figure #1) and then find the tile for the Vision Resource Center. If you are already in your Outlook web email, click on the App Launcher.

If you have never logged onto the network from off campus, you may need to set up [multi-factor authentication](#) protocols. See [District IT Help Desk](#) for further assistance.

Access while in your webmail

Communities

The District's participation in the VRC enables you to use Cornerstone's **COMMUNITIES** feature to engage with fellow Faculty, Staff, Administrators, and Trustees across the California Community College system in VRC communities built around key statewide initiatives, such as Guided Pathways, Equity, Instructional Design, the Student-Centered Funding Formula, Financial Aid, and many more.

Joining A Community

You can “Follow” Communities, Topics, Postings and Authors, which allows them to receive email notifications when a new posting is created from any of the areas they are following.

You can **Follow** by selecting the “**Options**” icon on the right-hand corner of the screen and selecting “Follow”, or simply stop following by going back into the Options icon and selecting “Unfollow”.

- ❖ When following a **Community**, you are following every Topic, Sub-Topic and Posting inside the Community
- ❖ When Following a **Topic**, you are following every Topic, Sub-Topic and Posting inside the Topic.
- ❖ When Following a **Posting**, you are following every reply made to the Posting.
- ❖ When Following an **Author**, you are following every new Posting created by the Author.

Create Posting

From inside a Topic that you are a Member, you can create a posting. There are 4 posting types available:

- ❖ **Discussion** - This posting type allows you to post file attachments or add a URL link. Up to three files can be added to these postings.
- ❖ **File** - This posting allows you to attach up to one file to the posting. The title of the attachment cannot exceed 100 characters.
- ❖ **Q&A** - This posting is used to ask questions to the Topic experts. When a Topic expert answers a Q&A posting, the response will be labeled as ‘Expert Answer’. An attachment or URL can be added to posting.
- ❖ **Suggestion** - This posting allows you to post suggestions or ideas. You can attach a file or URL to this posting. These postings allow for an up vote or down vote for the suggestion. Moderators and Admins can mark the Suggestion as accepted, indicating that the Suggestion has been accepted or implemented. An attachment or URL can be added to posting.

All Teams

Teams are a great way to organize workgroups who are **assigned tasks**. It is best that teams are for a finite period rather than ongoing. For example, a committee breaks up into workgroups with assigned tasks. These workgroups become Teams in Cornerstone. They then work on tasks like presentations, curriculum outlines, items related to Guided Pathways, etc. The team members share information on the Team Feed, and they create and manage the various tasks needed to deliver the final product on the Team Tasks page.

If you are thinking about creating a Team in Cornerstone, please contact the Professional Development Coordinator or PD Committee to discuss implementation protocols.

Live Feed

The Live Feed page displays user updates and activity updates from connections, team members, and users who have permission to broadcast statewide and collegewide messages. Use this link to keep up to date on posts and conversations about the Connect Communities and Team in which you participate.

Custom Communities

If you are interested in creating and moderating your own community, contact your Professional Development Coordinator or PD Office for more information.
