

Guillermo Colls – English as a Second Language

Hired full time in 2008, Guillermo Colls is still here! He designed the template curriculum for the BOOST Pathway, which is the Accelerated Pathway in ESL. Two years of data collected on BOOST show that ESL students are now completing in half the time with greater proficiency. He serves as Chair of the ESL Department. He has also served for eight years in the Curriculum Committee and the Academic Senate. Guillermo is known for his total lack of sense-of-humor. He also lies, but never to the Senate! He enjoys money and fame, although he has neither.
