COVID-19 Symptoms Requiring Testing

ARE YOU EXPERIENCING:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

* If you do not have a healthcare provider, please call the customer service line for your health insurance. If you do not have health insurance, call 2-1-1.

CALL your healthcare provider, *ESPECIALLY if you're 65 years or older, or are immunocompromised or have underlying medical conditions.

Healthcare provider identifies mild symptoms, may refer for testing, and advises home isolation.

Isolate at home and follow Home Isolation Instructions. Call healthcare provider if symptoms worsen.

Home Isolation Instructions

Healthcare provider advises you to come in.

Specimen is collected via swab and sent to lab to be tested.

Healthcare provider should have test results in about 3 days. You should self-isolate at home following Home Isolation Instructions while waiting for the result of your test.
